

How Siblings (and Their Parents) Can Make Peace with Aging, Change and Each Other

Atria West 86 invites you to a special presentation on the role of sibling rivalry regarding aging parents. Journalist **Francine Russo** – a *New York Times* Fellow at the International Longevity Center and *Time* magazine’s boomer expert for nearly a decade – will discuss the benefits of supportive living, signs that Mom or Dad may be ready for the move, how to talk to them about it, joint decision-making and how families can make peace with change. Join us at any of these events and receive a free copy of Francine’s book *They’re Your Parents, Too!* Don’t miss this valuable opportunity to learn more.
